### Approved Engine Oils For Ford

Engine Oils. Engine oil is the 'life blood' of your car. It's a vital component of the engine system, lubricating moving parts and ensuring your car has a long and happy life. If you're unsure how to change your oil, choose our Fit It For Me service to have it changed at a workshop alongside an oil filter fitting.

### Engine Oils | What Oil for my Car? | Euro Car Parts

The 2014 Ford F150 5.0 has a 5.0L engine with 8.8 quarts capacity for engine oil. The manufacturer recommends API SM certified standard 5W-20/5W-30 motor oils. Though you can opt for these as well,

Motor oil, engine oil, or engine lubricant is any one of various substances that consist of base oils enhanced with various additives, particularly antiwear additives, detergents, dispersants, and, for multi-grade oils, viscosity index improvers. Motor oil is used for lubrication of internal combustion engines. The main function of motor oil is to reduce friction and wear on moving parts and to ...

### **Motor oil - Wikipedia**

One way to protect your engine from damage is by using the right type of engine oil. Choosing the wrong type of motor oil can affect the performance of your car engine. There are different types of motor oils in the market, and they differ in thickness, viscosity, and ability to withstand high temperatures. Most vehicles have a specific type of oil recommended for them.
