Open the door of your furnace. It lifts up, and the inside should look like this if you have the same furnace I have, an Armstrong Ultra SX 90. The roll-out switch is located at the top right of this picture, behind the curvy pipe which takes natural gas up into the silver combustion area. Reach back there and press the button on the switch.

I have had an Armstrong furnace for 15 years and I must say that I have never had so many problems with a furnace or even if you put all the rest of them together I have not had as many problems as with the Armstrong Ultra v. This P.O.S. has gone thru three blower motors and modules and had several failures with flame rods and exhaust blowers.
