Trevor Paglen's "Blank Spots on the Map" is a compelling overview of the Black World, or at least what little is known about it, and the historical turning points that led to its creation and unchecked growth. Paglen offers a unique perspective by viewing the black world through a lense of geography, and results in a remarkably cogent analysis.

Blank Spots on the Map - The Dark Geography of the Pentagon's Secret World "Blank Spots is an important, well-researched, and insightful expose that opens a window into the black world of secret operations. Paglen's conclusion that 'our own history, in large part, has become a state secret' is both a warning and a call to arms.

Blank Spots On The Map

The perspective Paglen has in aggregating and distilling information over a sixty year period makes Blank Spots on the Map compelling. Yes, much of the information is available elsewhere as journalists and concerned citizens attempt to ferret out and disseminate information on places, activities, and people the government legally claims don't exist.
