*Subaru Forester P0420: Catalyst System Efficiency – Below ...*  
The P0420 code is a very popular one and that's why there's a site dedicated to that specific trouble code. If your car's check engine light is on, get that code read in case it's a P0420. A P0420 code is a trouble code on OBD-II equipped vehicles.

*P0420 Catalyst System Efficiency Below Threshold Bank 1 ...*  
Here's an Amazon link to that impact gun → <http://www.amazon.com/gp/product/B00B...> This is the O2 Sensor socket I used in the video → <http://www.amazon.com/gp...>

*Fixing a Subaru P0420 - the cheap and nasty method*  
P0420 Tech Notes As the code description implies the P0420 code means that the vehicle's control module has detected that the three-way catalytic converter is not working properly (is not as efficient as the factory is expecting).

*P0420 DTC Code - Catalyst System Efficiency Below ...*  
Code P0420: Catalyst system efficiency below threshold (Bank 1). P0420 can be caused by bad O2 sensors, a failing catalytic converter, or a leak in the exhaust system. See here for a step-by-step guide on how to diagnose and fix code P0420.

*P0420 - Meaning, Causes, Symptoms, & Fixes | FIXD Automotive*  
P0420 Catalyst Below Threshold Code only This code appeared and I did a few things like cleaning the manifold and engine, then shut off the code to see how long til it re appears(did this a few times). It seems to come on only at high elevation, whenever driving to the Mountains. Next, took it to emissions testing and it passed, even after a few months of the Check Engine Light being on.

*P0420 Code - Meaning, Causes & Solutions - Mechanic base*  
This low kilometer Subaru impreza flags a P0420 Catalyst efficiency fault code very quickly. The rear O2 sensor would behave almost like the catalytic converter had been removed. Replacement engine...

*P0420 Everything You Need to Know - Subaru or Whatever You Drive!*  
Typically the P0420 code triggers the Check Engine Light if the readings of the two sensors are similar. Oxygen sensors are also referred to as O2 sensors. This is indicative of (among other things) a converter that is not working as efficiently as it should be (according to specs).

*P0420 Bank 1 Subaru Outback | Car Picture Update*  
I am a new Subaru owner and just bought my first outback used this September. Since purchasing my check engine light has come on with the code P0420 "Catalyst Efficiency System Below Threshold". I looked into the problem a bit online and have checked out possibilities online and to the best of my knowledge it isn't just tightening the fuel cap.

*Engine Code P0420 Subaru*  
P0420 SUBARU Meaning The Engine Control Module ( ECM ) monitors the switching frequency ratio of heated oxygen sensors 1 (front O2 sensor) and heated oxygen sensors 2 (rear O2 sensor). A three way catalyst converter (Manifold) with high oxygen storage capacity will indicate a low switching frequency of heated oxygen sensor 2.
