TG-8000/8500 is based on Tokyo Keiki's previous TG model, which has been installed on more than 8000 ships. The Gyrocompass keeps its high reliability, enhanced follow-up performance and interfacing features for equipment. The TG-8000 is designed for standard IMO ship application, whereas the TG-8500 is

17-1400D, 1944, is a service manual for the most widely built gyro of WW II. This gyro was used on pretty much any ship that did not have automated fire control. In this online version of the manual we have attempted to keep the flavor of the original layout while taking advantage of the Web's universal accessibility.
