solution the possible out come of rolling die is =6 here in this case since it is rolled 3 our sample space is

Online Library Hard Probability Problems And Solution

$6 \times 6 \times 6 = 216$ we have asked to solve the probability of sum which will be atleast 5 this means 5 and more is possible. so that we have to search the possibilities of less than five to easy our work this will be like $[111][112][121] = 3$ outcomes only so $p(s') = 3/216$ when $p(s')$ is ...
