So I just received my Pantech Jest in the mail. I actually had the Kin Twom, and it kicked the bucket after only 2 months. My sister also had to receive a replacement for her Kin Twom, so the rep opted to send me a different phone after all of our troubles. The rep picked out the Jest for me. I didn...

Pantech Jest 2 is the follow-up of the Pantech Jest, but except the global roaming capabilities the new model brings nothing groundbreaking to the table. It comes with a smaller 2.4" display, 2MP camera, QWERTY keyboard and microSDHC card support.

The Jest 2 is literally the worst phone I
have EVER had the displeasure of using.
I purchased it because it was mismarked
on Amazon's website as having a 3.5mm
jack (the last time i checked, it wasn't
fixed despite having informed Verizon,
Amazon and Pantech...) and kept it only
because of the terrible and time
consuming process of doing refunds.
