Peugeot forums community. Posted: Wed 23 Mar, 2011 2:03 pm: either way you will need to remove the driveshafts , i dont think you will hoist the engine out with the box still attached ?? think the 307 might be a bit tight for that so gearbox removal is first task , with that out of the way you will have lots more room to move the engine as you lift , i take it you have an engine lift / crane
