Phet Simulation: Gravity and Orbits 8)  
Pause the Simulation. Hit "Reset." On  
the top left tabs, change your view so  
that you are to scale. In the Show menu,  
you can now also turn on the "Tape  
Measure".

grade classrooms, though can probably be used in a variety of settings. Students will be able to:

- Draw motion of planets, Moons and satellites.
- Draw diagrams to show how gravity is the force that controls the motion of our solar system.

adapted for Grades 7-12. High School physics teachers may wish to amp up the rigor by introducing the simulation in the context of Kepler's Laws. On the main page for "Gravity and Orbits", scroll to "Teacher-Submitted Activities" and click on "Kepler's Laws and Orbits".

## **Phet Simulation: Gravity and Orbits**

# Read Free Phet Simulation Gravity And Orbits Answer Key

Gravity and Orbits is an interactive simulation that investigates the effect of gravity on orbital paths. Users are given the option of investigating four scenarios: 1. star and planet, 2. star, planet and moon, 3. planet and moon, and, finally, 4. planet and satellite.
