Melta Weapons are a type of thermal weapon that make use of a sub-atomic reaction in a chemical fuel source to produce a tightly-focused beam of intense, searing heat. The Imperial Meltagun and Multi-Melta (also known as "Cookers" or "Vape Guns"), as well as the grenade-like Melta Bomb, are formidable directed energy weapons. Melta Weapons have a short range but are very powerful and their ...

### **Tau Codex 6th Edition**

A codex (often pluralised as codexes by Games Workshop, though the grammatically correct pluralisation is codices), in the Warhammer 40,000 tabletop wargame, is a rules supplement containing information concerning a particular army, environment, or worldwide campaign.. Codexes for particular armies were introduced for the second edition of the game. The third edition rendered these obsolete ...

### **Codex (Warhammer 40,000) - Wikipedia**

Laser Weapons, or Las Weapons as they are known in the Imperium of Man, are a family of directed energy weapons that produce beams of high-intensity amplified light to produce heat damage on a target. Laser Weapons are relatively easy to produce and maintain. No solid ammunition is ever used -- only power cells which can be recharged and quickly swapped when depleted with another fully-charged ...

The vehicles and troops available to the Space Marines are as diverse as the Chapters themselves. Tactical Squads make up the bulk of the force, which in turn are supported by Rhinos and Razorbacks. The elite of the elite, Terminator Squads can advance deep into the enemy nearly impervious to enemy fire, while Assault Marines equipped with powerful jump packs rain fire from
